

SatzBau!

(players in teams of two)

WINNING CRITERION: secure 50 points by creating sentences with 3 or more words

COMPONENTS

1. There are card stacks in 7 colours. Each card has a German word on one side (face-up) and is blank on the other (face-down).
2. There is also a set of blank cards. These are wild cards and can be used to represent any word.
3. Scoring sheets

SET-UP

4. Shuffle each of the 7 stacks and place them face-down in a row.
5. From each stack, pick the first 4 cards and place them in a column beneath the stack. This should generate a grid of 28 cards (7 X 4). Place the stack of black cards below this grid.
6. Give a scoring sheet to each team.

GAMEPLAY

7. At their turn, a team must pick one of the 28 cards. The gap in the grid is filled with the top card of the respective stack before the next team's turn. The team may also choose not to pick a card from the grid and instead pick a wild card.
8. At their turn, teams may also reveal a sentence they have built and collect points. The card may be taken before revealing the sentence.
9. Teams' cards must be kept face-up, visible to all.

SCORING

10. At their turn, teams with more than 12 cards in their possession, must return the extra cards of their choice to the stack piles.
11. Creating a grammatically correct sentence guarantees **5 points**. A team has "created a grammatically correct" sentence when they have added all missing parts - article, fem/masc/neut/plural marking on nouns - and used the correct verb form. This sentence must be written down in the team's score sheet.
12. **5 extra points** for:
 - each blue, yellow or red card used
 - creating one or more new words by joining up cards
 - using the correct Akkusativ forms when applicable
